

PERSONAL GUARANTEE

IMPROVE YOUR PERSONAL EFFICIENCY AND WORK SATISFACTION

Ensure your name is associated with Quality.

Personal Guarantee is a powerful quality concept underpinned by the principle that the person who performs a task guarantees its quality; meaning that this person has checked their own work – and is not only proud to put their name TO it, but also ON it.

Quality gained its place as an important business requirement back in the 1950's and was synonymous with names like Crosby, Deming, Juran, Ishikawa and Feigenbaum. It was in the 1980's that TMI was the only organisation to introduce the notion that Quality is actually about people - and so the 'Personal Quality' concept was born.

The Personal Guarantee programme is a core component of Personal Quality. It develops awareness around quality and focuses on how we can learn to increase the quality of every detail in our every day activities.

Throughout this interactive workshop, individuals will be challenged to reflect on their values, attitudes and behaviours and how these impact upon personal quality. Participants will explore real-life examples of poor quality and the feelings they evoke about the individuals or organisations involved. Furthermore, they'll use a 7 step tool to help define, manage, monitor, measure and improve team quality.

2 Day workshop

Comprehensive materials

Engaging learning experience

TARGET AUDIENCE

Anyone who performs value-adding activities in organisation or who wishes to improve the quality of their work, their team's performance and overall engagement and satisfaction at work.
